

Karuk Tribal Health Program - Karuk Health Clinic, Yreka

Executive Summary

Summarizes the Site, Parking, Facility Size, Staff and Contract Health Dollars necessary for the Service Delivery Plan in 2015. Identifies the Direct Care Services Offered to include highlighting any new services. Identifies the communities and population served for each service. The second page of the Executive Summary documents the priority resource issues as identified through the Master Planning process.

Historical Utilization by Location of Encounter

Documents 3 years of RPMS and contract care workloads provided at the facility predominantly serving the Primary Care Service Area by product line and specialty.

Historical Utilization by Community of Residence

Documents 3 years of RPMS and contract care workloads provided to the user population of the Service Delivery Area by product line and specialty.

Market Assessment

Compares the Historical Workload to the Health System Planning software and to national averages of patient care utilization, projecting future workloads based upon the worst case of these three planning scenarios. Also documents the percentage of care that will require contracting due to acuity and the quantity of care that can potentially be served by the direct care system.

Service Delivery Plan

Recommended service delivery plan by product line based upon projected workload, key characteristics, patient classification and tribal and IHS input.

Resource Allocation

Quantifies the necessary space and key characteristics for the Service Delivery Plan and compares them against existing resources. Also tabulates necessary contract health dollars based on the delivery plan.

Executive Summary

Service Area Description

The Yreka Health Center, serving the Primary Care Service Area Communities listed to the left, is located in the city of Yreka, California on Interstate 5 about 40 miles south of the Oregon border.

As part of the Karuk Tribal Health Program, it is also a hub of primary care for Native Americans who need to come to a larger population center for care. It sends most of its referral workload to Fairchild Medical Center in Yreka. The closest alternative care options can be found locally in Yreka (Primary & Secondary Care) and Medford, Oregon (Tertiary Care).

As noted in the Service Summary to the left, Yreka Health Center plans to operate as a 40 hour per week Health Center with family practice, dental, behavioral health and supporting ancillary services (Pharmacy will be in Happy Camp). Visiting specialists for Optometry & Podiatry are also anticipated. In the Expanded Service Area #1 to the left, a list of services provided to other Karuk facilities planned for in 2015 is provided.

Facility Description

The 1,130 square meter facility is located right in Yreka just off of the main thoroughfare and possesses parking and limited storage. It was renovated in 2002 and is not leased.

	Services & Resourcing Priorities								
1	Provide Diabetes staff and space								
2	Provide Wellness Center and staff – in conjunction with – Provide space for Traditional Healing								
3	Provide Substance Abuse Transitional Care services and space								
4	Improve Pharmacy services (added to list)								
5	Provide HIV/AIDs staff and space								
6	Provide PHN staff and space, and fulltime maintenance staff and space.								
7	Provide additional exam room, office and space for visiting professional.								
8	Provide security onsite with space								
9	Increase gross clinic space to support services, add archive storage area.								
10	Add Lab tech								
11	Increase Pharmacy space	Resourcing Needs #11 and following are not							
12	Add Pharmacist	prioritized							
13	Add Counselor office for Behavioral Health								
14	Provide Case Management Services and space								
15	Add CHR space								

The California Area Health Services Master Plan Karuk Tribal Health Program - Karuk Health Clinic, Yreka

Executive Summary

	Services & Resourcing Priorities Continued
16	Provide Senior Citizen services and space
17	Provide quality management staff and space
18	Provide space for Traditional Healing
19	Add EMS services, ambulance and space
20	Increase transporter space
21	Provide Business Office staff and space (review in light of total Karuk Admin staff)
22	Increase Administrative staff (review in light of total Karuk Admin staff - see Service Unit Roll-up in Happy Camp's master plan)
23	Provide Contract Health staff and space (review in light of total Karuk Admin staff)
24	Provide Outreach Elder Care services and space
25	

	Campus Infrastructure Priorities									
1	Parking lot is unsafe after snow fall. Side walk is heated, but only keeps ice and snow off a small area. Something needs to be designed to remove snow and ice from parking lot and/or we need	7								
2	Conference room needs to be enlarged. It's inefficient for organizational use, and patient services.	8								
3	Dental lacks administrative/managerial work space.	9								
4	Needs additional operatory for Dentist and Hygienist, and additional office space.	10								
5		11								
6		12								

	Functional Deficiencies									
1	Provide a privacy barrier between medical and dental reception area. Confidential information is heard throughout area.	7	Medical Department Nurse's station is too high. Needs to be lowered to sitting height with cabinets above. Also needs to be enlarged to accommodate medical assistants.							
2	Better design of medical/dental reception area. Discussions with patient can be heard in clinic lobby; more privacy needed.	8	Nursing supervisor needs private office.							
3	Medical chart room is already too small and needs to be enlarged with better office/work space for clerks.	9	There are no offices for clinic support staff such as Elder's Worker, CHR, Eligibility Clerks, Patient Assistance Worker, Transporter, and Data Entry Clerk. These positions are sharing one room which does not allow for							
4	Dental needs dedicated chart room with work space.	10	Social services and Substance Abuse Department must share kitchen and copy machine, and etc, with medical clinic, which allows them to walk past exam rooms, and stand in reception area, which places confidential							
5	Pharmacy needs redesign. One large room with an additional room inside of it. In the main room injectables, medication refrigerators are kept here: medical assistants and LVN's can	11	Dedicated teleconference room with sliding doors that open up into larger conference room. In this way the equipment can be stored out of the way or used during a Conference or meeting.							
6	Laboratory only equipped with one sink. No space for clean and dirty area.	12	Lacks administrative work area for traveling administrators/ directors / managers.

Intensive Care	49	49	# of beds 0.2	0	49			

Intensive Care Units (ICUs) provide treatment for patients who require intensified, comprehensive observation and care because of shock, trauma, or other lifethreatening conditions. They are staffed with specially trained personnel and contain monitoring equipment and other specialized support equipment for treating.

Psychiatry	7	7	# of Beds	0.0	0	7	

Psychiatric Care provides specialized care and consultative evaluation for eligible inpatients; coordinates healthcare delivery relative to the examination, diagnosis, treatment, and proper disposition of patients with psychotic, neurotic, or other mental disorders; maintains protective custody of patients with psychiatric disorders when required to prevent injury to themselves or to others; establishes therapeutic regimens; conducts individual or group therapy sessions; provides short-term treatment to patients psychologically or physically dependent upon alcohol or drugs; maintains custody of sensitive or medically privileged records and correspondence that evolve during treatment of patients; prepares medical records; and submits required reports.
